DXF-Manager

The DXF Manager displays files from AutoCAD or other CAD systems or programs on screen, and converts them to other graphic formats.

Conversion

Available output formats are: CAD: DXF, IGES
Plotter: HP-GL, HP-GL/2, Aristo, Lasercomb
NC-Code: DIN 66025, Deckel, SM. Laser printer:
Postscript, HP-GL

Command Line Mode

In command line mode DXFMAN can be used as batch oriented conversion tool. Example: "DXFMAN *.DXF /CIGS /D3" converts all DXF files to IGES files.

Printing / Plotting

Configurable scale and drawing origin.

Postscript Laser Printer

Text font and text width can be configured. Colors and layers can be assigned by different line thickness.

NC Code

DXF drawings can be transferred directly to NC programs.

DXF Filter

When exchanging DXF files, incompatibilities can be corrected by conversion with DXF Manager.

Hard and Software Requirements

The DXF Manager is available as 32-bit app or 64-bit app for Windows 11, Windows 10, Windows 10.

Scope of Delivery

DXFMAN Program, user manual (pdf) with description of graphic formats used, non-expiring perpetual license .
